

Brainstorming & Idea Prioritization Template

Date	
Team ID	XXXXXX
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	3 Marks

Step 1: Brainstorm and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	Chetan Venkat Pasupuleti	Predict a country/region's Human Development category (Low / Medium / High / Very High) from socio-economic indicators such as GDP, literacy rate and life expectancy.	ML Classification	1
2	Manaswini Mallipudi	Build a web application where users can enter indicator values and instantly get the predicted HDI category.	Web App / Deployment	1
3	SaiGanesh Kota	Cluster countries with similar development patterns to support comparative analysis across regions.	ML Clustering	2
4	Chinta Eswar Sanjay Ram	Show visual analytics (charts/graphs) of how HDI indicators for a chosen country change over the years.	Data Visualization	2

5	kondeti vekata saicharan	Highlight which indicator is most responsible for a low prediction, to help suggest where policy intervention is needed. Add a Gen-AI assistant that explains the prediction result and the indicators in simple, non-technical language.	Decision Support Gen-AI Integration	3
6				

Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

Group No.	Final Idea	Feasibility (High/Medium/Low)	Importance (High/Medium/Low)	Priority	Selected (Yes/No)
1	ML-based HDI classification on web app with a real-time prediction dashboard	High	High	1	Yes
2	Visual analytics dashboard showing HDI indicator trends over time	Medium	Medium	2	No
3	Gen-AI assistant to explain predictions and suggest policy actions	Medium	High	3	No (Future Scope)
