

Communication

Date	15 March 2026
Team ID	XXXXXX
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	1 Mark

Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	WhatsApp / Google Meet	Team Members	Share daily progress on data preprocessing, model training, and Flask development tasks.
2	Progress Update	Weekly	Email / Google Docs	Team Members & Mentor	Report weekly milestones such as dataset cleaning, model accuracy, and app feature completion.
3	Issue / Bug Discussion	As Needed	GitHub Issues / WhatsApp	Team Members	Discuss and resolve issues such as prediction errors, missing values, or Flask route bugs.
4	Stakeholder Review	Bi-Weekly	Google Meet / Zoom	Team Members & Mentor	Present project progress and gather feedback on the model's accuracy and application usability.
5	Final Demo Rehearsal	Once	Google Meet	Team Members & Mentor	Rehearse the final walkthrough of the HDI Predictor before the project demonstration.
6	Final Submission Review	Once	Email	Team Members & Mentor	Confirm all deliverables (source code, documentation, deployed link) before final submission.

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Model prediction accuracy varied during initial testing, causing confusion when reporting progress.	Performed additional data cleaning and validation, then re-tested and reviewed results as a team before reporting.
2	Delay in receiving mentor feedback on the deployment approach.	Followed up via email and scheduled a dedicated review call to resolve open questions quickly.
3	Version conflicts occurred in shared files (app.py, model.py) during collaborative development.	Adopted a Git branching strategy with pull request reviews before merging changes.
